College Council Mini-Retreats

The College Council was very busy conducting three mini-retreats that took place from mid-December through the end of January. The purpose of these retreats was to complete a draft Governance Handbook for the college. Everyone on campus will get a chance to review the document and will be given the opportunity to offer input.

Other reports:

- President

Strategic Master Plan goes to Board of Trustees. The updated Environmental Impact Report goes to BOT. This involves expanding the college footprint through the negotiation and the purchasing of land for projects still to be designed.

- Accreditation Steering Committee

VP of Academic Affairs Kathleen Burke-Kelly has begun writing the accreditation response to recommendations #1 and #6. She and ASC co-chair Joe Ratcliff will be working together on the responses. The drafts will then go to committees for input and finally to the entire campus for review.

College Council Action Item #28

- **Student Success Committee Membership Reduction**

The Student Success Committee co-chaired by Dr. Raul Cardoza, Dean of Enrollment Management and Dimitri Lagos, LATTTC Director of Athletics, have requested a reduction in the number of members of their committee. With more 26 members on the original roster it was challenging for the committee to complete its work. The co-chairs proposed a 12-member voting roster that includes faculty, staff, and student groups to include:

- VP Academic Affairs
- VP Student Services
- Dean Academic Affairs (must be a Teamster)
- Dean Student Services (must be a Teamster)
- (2) Academic Senates reps
- (2) AFT Faculty reps
- (2) Department Chairs
- AFT Classified rep
- ASO rep

The Student Success Committee is completing the Student Equity plan to guide the campus on policies and procedures for giving students the best possible experience while at Trade Tech.

Members of College Council
