**COURSE CATALOG DESCRIPTION** -- Provide a brief description of the course, including an overview of the topics covered:

Checklist:

- Course number and title
- Status (noncredit versus credit or others)
- A content/objective description, a short paragraph (course description) that provides a well-developed overview of topics covered. It should be brief enough to encourage a quick read. To save space, many colleges use phrases rather than complete sentences. For noncredit courses that may lead to credit courses, it is a good idea to consider the catalog descriptions for the common receiving programs or institutions to promote a logical pathway for students intending this route.
- Course type (lecture, lab, activity, special topics, etc.), and contact hours
- Fulfills a certificate of completion, competency or high school graduation requirements

Ability to articulate or prepare for credit coursework. This is an open-entry/open exit course. This course is intended for beginning high and intermediate low English speakers. ## SECTION II - COURSE CONTENT AND OBJECTIVES

**COURSE CONTENT AND OBJECTIVES** Outline the topics included in the lab portion of the course (*Outline reflects course description, all topics covered in class*). Add more lines as needed.

• The content element contains a complete list of all topics to be taught in the course. The list should be arranged by topic with sub-headings. Content items should be subject based.

• Objectives: (Include Total Hours for each Topic), should be stated in terms of what students will be able to do, should clearly connect to achievement of the course goals, should be concise but complete: ten objectives might be too many; one is not enough, should use verbs showing active learning, theory, principles, and concepts must be adequately covered. Skills and applications are used to reinforce and develop concepts, each objective should be broad in scope, not too detailed, narrow, or specific.

Lecture Content:	Hours per topic	Objectives:
Communication: Living in the United States <b>Housing</b> - Types of housing - Advertisements - Leases - Rental agreements - Rights of tenants - Rights of landlords - Landlord/tenant issues	6	Evaluate issues related to housing. **INSTRUCTION AND EVALUATION**, add more lines as needed.

• **Methods of Instruction** - The focus should be about describing what the students will be doing and experiencing, not only with respect to the instructor, but in some cases with respect to each other and with their environment. The methods of instruction used are appropriate to the objectives. If an objective is to "physically perform," then lecture as the sole method for learning is not enough. The assignments and methods of instruction and evaluation must be appropriate to the stated objectives.

• **Methods of Evaluation** - The bases for evaluating assignments are given, and relate to skills and abilities in objectives. Knowledge of required material should constitute a significant portion of the evaluation as reflected in assignments and methods of evaluation. Please note that while noncredit courses do not produce grades that would be "credited" into a student record, this in no way obviates the critical need for the course design to comprehensively include student evaluation and feedback.

Methods of Instruction	Methods of Evaluation
Discussion and Activity	Oral presentations, written paragraphs and journals, and story board.

**LEARNING OUTCOME INFORMATION**

<b>Student Learning Outcomes:</b> Upon successful completion of this course, the student will be able to ( <i>Use action verbs - see Bloom's Taxonomy for 'action verbs requiring cognitive outcomes.'</i> ): (MAXIMUM OF 3 OUTCOMES)	<b>How will these student learning outcomes be assessed?</b> ( <i>Explain how each outcome will be assessed in this column:</i> )
